### PART III REASONS FOR ALLOWANCE

1. This application has been examined. Claims 1,3-5 and 7-31 are being allowed over the prior art of record. Prosecution on the merits is closed in this application.

2. The following is an examiner's statement of reasons for allowance:

The prior art of record teaches different ways of printing increasing the printer's throughput by spooling and despooling. However the prior art of record fails to teach, or suggest the claimed limitations of (in combination with all other features in the claims), a method, device or computer program for increasing throughput of the printer or for processing print jobs having **monitoring the storage device to determine when print data associated with the print job becomes available on the storage device; reading the print data associated with the print job from the storage device upon determining at least a portion of print data associated with the print job on the storage device is available for printing, while concurrently writing print data associated with the print job to the storage device; suspending reading print data associated with the print job from the storage device upon detecting a predetermined condition associated with print data associated with the print job;** and printing the print data associated with the print job that is read from the storage device concurrently while print data associated with the print job is being written to the storage device, as now recited in the amended independent claims.

Any comments considered necessary by Applicant must be submitted no later than the payment of the Issue Fee, and to avoid processing delays, should preferably accompany the Issue Fee. such submissions should be clearly labeled "comments on statement of Reasons for Allowance".

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gabriel I. Garcia whose telephone number is (571) 272-7434.
